New Agent Representation

Whitehead & Associates to represent Copperweld in the Southeast United States

Brentwood, TN (June 13, 2016) Copperweld Bimetallics, LLC, the inventor of Copper Clad Steel, is pleased to announce the addition of Whitehead and Associates to its network of agents and distributors. Whitehead and Associates will serve as Copperweld's exclusive agent to distribute Copper Clad Steel (CCS), HIDE, and CAMO products to utility industry customers located in the Southeast section of the United States, to include the states of Alabama, Georgia, Florida, and portions of Mississippi.

Founded in 1968, Whitehead & Associates is a family owned and operated electrical distribution company with over 50 years of experience providing products and services into the electric utility, commercial, and industrial industries. Whitehead & Associates' strategically placed agent network, combined with its industry expertise makes it the perfect partner for Copperweld in the Southeastern utility markets.

Please join me in welcoming Whitehead & Associates to the Copperweld Family!

Thank you,

A handwritten signature in black ink, appearing to read "DS" with a stylized flourish.
